ORDERING A GUITAR

(please read below for ordering information).

A minimum **non-refundable** deposit of \$1,040.00 is required when placing your order. This can be paid with a money order, cashiers check, Master Card or Visa. I will accept a personal check but it will take 7-10 days to clear. You cut more down but this is the minimum requirement (\$1040). Upon receiving your non-refundable deposit all materials for your guitar will be purchased, some of which may already be in stock, and set aside for you to guarantee availability for your guitar. You can use Visa or MasterCard or a debit card to place the deposit and or following payments.

Your deposit secures you a place in the production schedule. The wait is 6 months to 1 year depending upon which guitar you order and how much inlay there is, if any. You will receive a work order/receipt detailing the specifications for your guitar, not all of which need to be known at the time, and a receipt for your deposit. All guitars with custom inlay must be paid in full before completion. The balance on all guitars must be paid before the guitar is shipped. Guitars are shipped UPS and packed well. On guitars exported out of the United States of America, you will be responsible for all the import duties and taxes your country/gov't may levy. The full amount will be claimed when shipping overseas or to Canada and they will be fully insured. It is also quite possible that I can deliver the instrument to you if I am going to be traveling to a guitar show near you. This would be pre-arrange by you and I soon after the initial deposit is made. Your state sales tax may apply.

There are two numbers you can call to place your order. 641 582 3718 or 641 590 2593.
