

The Power of Bass

For over five decades, the Ampeg name has been synonymous with bass. Powerful, genre-defining, multi-dimensional, thunderous, smooth, groove-setting bass.

From mid-century Big Band Jazz, to the birth of Rock & Roll; from Stadium Rock to Hair Bands; Funk, Blues, Rap, Reggae, Salsa, Latin Beat, and everything in between, Ampeg is there.

As you browse the pages of this catalog, you'll see some old friends. From the original Portaflex to the SVT-CL - these are the cornerstones of modern music. You'll also notice a few new players....the dual channel 1350 watt SVT-5Pro head, the ultra-high performance SVT-810HP stage cabinet, the revolutionary PortaBass series of high powered portable heads and cabinets, and the new SR-212RT 100 watt all tube lead combo. Rest assured, all are genuine Ampeg.

Dependable. Powerful. Roadworthy.
Modern. Innovative.

Ampeg. The Power of Bass.

SVT-AV

SVT-810AV

Anniversary Classic Series

When The Rolling Stones toured in the late sixties and early seventies, the world was exposed to a new technology - the Super Vacuum Tube or the SVT. Since then, bass players recognize the unmistakable Ampeg sound - 300 watts of pure tube power exciting eight 10" drivers. The sonic result is a foundation of solid lows, cutting mids, and satisfying highs.

Today's updated reissue Anniversary models offer the same soul-shaking tone. The all-tube SVT-AV is the direct descendant of the original, but with new twists like an input gain and master volume, a five-position mid frequency selector to fine-tune your critical midrange, and incredible tube protection circuitry.

The matching SVT-810AV enclosure employs the same driver technology that makes Ampeg enclosures the number one name in bass enclosures.
