

Bassamp Series

Named after their 1950s counterparts, these new combos embody all the elements that made Ampeg a household name among bass players. Innovative, versatile and great sounding, the Bassamp Series combos incorporate a tilt-back monitor style making them great for the stage, studio and even the bedroom.

The five position Style control gives you a choice of five different voices that you can fine tune with the three bands of rotary EQ. The RCA inputs are perfect for playing along with a sequencer or CD player to hone your chops.

The BA-112 features a 50 watt power amp section driving the custom 12" cone driver while the 100 watt BA-115 features a single 15" and tweeter. For the ultimate in compactness, the BA-110 provides SVT-like tone in a single 10" combo.

Bassamp Digital SP Series

Ampeg's 1970s tone is taken one step further with the funkiness of digital signal processing. Sixteen presets of effects range from funk wahs to bass synths to overdrive, each with adjustable parameters. The included footswitch enables storage of four of your most commonly used effects. The adjustable level control blends the desired amount of effects into your sound.

The BA-115SP features 100 watts into the tilt back cabinet that houses the single 15" and high frequency tweeter. For the ultimate '70s experience, plug into the 200 watt BA-210SP. Two 10" speakers and tweeter reside in a compact cube cabinet.

16 Effects for the BA115SP or BA210SP
 Bypass, Chorus, Flange, Phase Shifter, Reverb, Octavider, Echo, Slapback, Funk Wah, Reverse Wah, Chorus/Echo/Wah, OctaWah, SVT, Synth Bass 1, Synth Bass 2 and Square Wave.
