

## **THE EXP-2001 EXPANDORA II**

Previously available on a "need to know" basis only, information on the Expandora has now been declassified and made available to the public. This multi-function distortion unit was long rumored to be the secret weapon behind the sonic assaults of many top professionals, but until recently intelligence as to its whereabouts was not available. Now the Expandora has resurfaced albeit with a new, slightly altered identity. While its appearance may have changed, the Expandora II's mission remains clear — to provide all the great sounds of the original Expandora with improved operation and a user-friendly configuration.
