**Inventory now in stock:** Mountain Stone finish series in 5 hues

It looks like a rock,  
 it feels like a rock,  
 and it sounds tough;  
 just like a good rock amp should.

Designed for durability, this textured  
 finish is multi-layered onto our cabinets  
 for long life and use.

- 1 ~ Greystone
- 2 ~ Sandstone
- 3 ~ Whitestone
- 4 ~ Slatestone
- 5 ~ Blackstone

 figured maple models**

1 ~ Greystone      2 ~ Sandstone      3 ~ Whitestone      4 ~ Slatestone      5 ~ Blackstone

**Figured Maple**

**Inventory Now in stock:** Maplewood models

After a decade of experimenting with several varieties of woods, we have chosen a figured maple, similar to the maple in high end guitars, violins and cellos, as the perfect finish for our Mountain Amp. Our search for a consistent supply of the highest quality maple brought us to Vancouver, BC on the West Coast of Canada. Each amp is hand crafted from selected matched maple panels and because of the variance in grain patterns **NO TWO AMPS ARE THE SAME**, each is a gorgeous work of art as unique as a fingerprint.

**figured Maple red**

**The clear wood finish**  Our Maple cabinets come in three categories  
 The clear finish shows the natural maple grain

**The coloured finishes**  Pacific blue  Electric red  Emerald green  Antique amber

Highly figured west coast cabinetry, crafted from hand-sorted complimentary panels

**The custom order** **All of our Mountain Amps have the distinctive MTN logo speaker grill in a brushed stainless steel finish.**

The custom model is our most outrageously figured & spalted maplewoods. Because of the details in the wood we usually offer our models in the naturally clear finish; however other colour finishes are available for custom orders. The sky's the limit ~ call or e-mail us
