

rama guitars ~ australia

RAMA is just two guys making world class guitars right here in Melbourne.

We build handcrafted instruments in limited numbers, so you won't find our guitars everywhere. We do have restricted, directly supplied outlets in most states (like **Dynasound** in Melbourne). Rama have years of experience and knowhow when it comes to design and building. All of our instruments are handcrafted from exotic and rare woods, and only the best hardware is used. With our prices ranging from **\$587 to \$712....that's even better news for you!**

We do guitar repairs, specialising in solid body guitars and our rates are extremely reasonable.

FOR MORE INFORMATION on our guitars and basses contact
