

the Rarebird

[[Home](#)] [[Biography](#)] [[Guest Book](#)] [[Guitar Models](#)]

Rarebird Guitars made from fine woods and finishes that accentuate the natural beauty of the grain. Made for the player that demands quality workmanship and performance.

Pick from a variety of custom made instruments or design your own.

Rarebird, a trademark of Rarebird Guitar Labs located in Denver Colorado, uses as it's trademark the beautiful rare and endangered birds that are delicately inlayed into the head stock of each instrument. All electric, acoustic and bass guitars are hand crafted by Phillip Bruce Clay. Clay, a master Luther, has devoted his life to producing fine instruments for musicians that demand high quality and durability. Over 23 years of practical experience.

Noted Rarebird features are, multi-laminate necks and graphite reinforcements for stability, heel less bodies with either neck-through or "set in" body for the best sustain and complete access to all frets. The Rarebird line includes semi-hollow body designs that achieve a rich full balanced tone.

Only serious inquires will be answered. Prices start at \$1000.00 for standard production models, \$2250.00 for custom made instruments. Many custom models available with choices of options. Basses are available in 5 and 6 string models. Mini Guitars available in the Telyhawk and Falcon models starting at \$500.00. The choices are virtually unlimited as anything you can dream can be built. If you don't see an option you like or would like a custom made to your specifications send your request to: Rarebird Guitars, PO Box 211094, Denver, CO 80221-9998, Tel: 303-657-0056 or email [Bruce](#).
