

Classic Tom-Toms & Bass Drums

Our Classic Tom-Toms are made of 6-ply all maple shells with 6-ply sound rings.

Again, we cut and install our own sound rings. This gives the drums exceptional strength and a wide range of tuning capabilities. Precision bearing edges are machined to tight tolerances to give the drum excellent tonal response. The Classic Tom-Toms are supplied with **rbhDRUMS** exclusive tube lugs, and 2.3mm steel rims or optional die-cast. Heads are medium weight coated or clear heads or can be supplied with the head of your choice.

The **rbhDRUMS** Bass Drums, are 6-ply drums with 6-ply sound rings. All bass drums are supplied with heavy duty telescoping spurs and custom made solid ply hoops. The hoops can be made of the same wood and finish as the drum or can be of contrasting color. All bass drums are supplied with Aquarian Heads unless otherwise specified by the purchaser.
